Question - 05

(I)

1. B
2. A
3. B
4. A
5. B

- 6) 1. Large liners are placed in the bottom of landfills so that toxic garbage juice doesn't get into the ground water.
2. \* All of that garbage stinks so nobody wants to live next to a landfill.
- \* This makes it hard to find new locations for landfills.
3. It's hard to do after the garbage gets all mined up. This is because plastic and other inorganic materials must be removed from the compost pile or they will pollute the soil. There's a lot of plastic in garbage.

which makes it hard to compost on a large scale.  
(Give marks if student explains above idea including own words.)

Advantage - The heat from the incineration process can boil water, which can power steam generators.

Disadvantage - burning garbage pollutes the air.

Some cities worry that incinerators destroy valuable resources that could be recycled.

Most - Recycling

Least - Incineration / Landfilling

[  $2 \times 5 = 10$  marks ]

Give marks for grammatically correct and meaningful sentences.

[  $2 \times 10 = 20$  marks ]
